12/10/2008 12:55 PM

Sure!

Here are the directions

I-55 South (~40 mi)

I-80 West (~45 miles)

I-39 South (exit 79 A) (~2 miles)

US-6 towards Peru/LaSalle (~0.5)

turn right onto US-6 go a few blocks, over the bridge, you will pass a Casey's Gas Station on your left, next street or so is Sterling St. Turn RIGHT

Drive north on Sterling St. for about 5 blocks until you pass 11th st.

You will see a fenced gate about 50 feet past the intersection of Sterling and 11th on your right hand side, it is set back from the road, marked by cones, and has a US EPA Superfund Sign on it...

this is IT

1256 Sterling St. LaSalle, IL 61301

Pull in the gravel driveway and you will see a trailer on the other side of the fence!

home sweet home :)

Why don't you include what you feel is important relating to risk that
needs to be dealt with on the 16th and put that in the agenda along with
all the other details. I will send it out then on Friday (can you get
it to me by thurs nite?) We are going out in the field to the site
fricay for sure....I am meeting the osc there about 9:30 and will let
chac know too.

As for the FL trip - I just don't think that is going to be okayed here at my end....why don't you put in the agenda figuring out a "schedule" for the risk assessors to talk, meet, etc. - how does that sound?

RE: M&H Site Meeting

Ok!

So do you want me to flesh out the agenda with all the "details" mainly stuff from our November meeting?

I do think we need to discuss some Risk Assessment as it IS part of the Report. I don't think we'll have any real time to delve into the HHRA and ERA documents, but I think there should be some introduction of the materials being submitted and discussion of future evaluation and discussion (teleconferences) of these materials. Our risk team will be participating via teleconference (David) and Eric plans on attending, so that they can discuss schedules AND any preliminary discussions on 12/16.

Seems like she was serious about the FL visit! lucky you ;) Our risk assessors (and our costing) are prepared to have multiple teleconferences in the upcoming months to discuss specifics with Geosyntec and were hoping to hash out a preliminary schedule for this on 12/16.

Then we can update you on our bimonthly calls.

Sound ok?

Nandra doesn't have anything to add to the agenda. Note her question on the risk meeting - do you think she is serious??? I wasn't sure! Anyway, I am pretty sure you can't get on a plane and fly in Jan....and I don't think my boss would like very much to pay for me to fly to Florida! I suppose the risk team could meet on its own, but would you want to be there? If so, I am thinking we need to have something local...thoughts?

(Embedded image moved to file: pic12455.gif)

No changes in agenda. Looks great. Suggest we do not go into the risk assessment and focus on the report. We suggest having a risk meeting (in Florida - would you guys be willing to come?) in early January.

Nandra C. Weeks, P.E.
Principal
